## Instructions for Timber Transports from Wallnäs Timber AB Sawmill

### Before Arrival

- Notify the license plate numbers of both the truck and the trailer.
- Provide an estimated time of arrival (ETA) when possible.

### Upon Arrival at Wallnäs

- Use the designated entrance.
- Maximum speed within the industrial area: 30 km/h.
- Waiting is only permitted in designated areas.

### At the Shipping Office

- Provide reference number / load order number.
- If the office is unattended or in case of questions, contact: +46 (0)496-508 25.

### Trailer Specifications

- Only 13.50 m trailers with two openable sides are accepted.
- Contact the shipping office if the required specifications cannot be met.
- The trailer must be equipped with:
  - Minimum 9 approved lashing straps
  - Center supports to secure the load properly

### Safety on Site

- Safety shoes and high-visibility vest are mandatory.
- Pay close attention to forklift traffic.
- Follow all signage and instructions from staff.
- The driver must be sober and drug-free at all times.
